Using technology in education is not a question anymore.

our ~~purpose~~ during this week: motivation:

Using technology in education is not a question anymore.

Our students are already using tech for communicating.

our ~~purpose~~ during this week: motivation:

Using technology in education is not a question anymore.

Our students are already using tech for communicating.

We are already using tech for communicating.

our ~~purpose~~ during this week: motivation:

Using technology in education is not a question anymore.

Our students are already using tech for communicating.

We are already using tech for communicating.

The teacher's primary role is to communicate information.

our ~~purpose~~ during this week: **motivation:**

Using technology in education is not a question anymore.

Our students are already using tech for communicating.

We are already using tech for communicating.

The teacher's primary role is to communicate information.

We should communicate information to our students using the means they are most comfortable with. It will be easier for us if it's easier for them. So we should always be up to date with the tools available.

**Change is inevitable.
Progress is optional.**

-Tony Robbins or John C. Maxwell

our purpose during this week:

Getting updated and comfortable with some free available tools that allow us to better communicate information to our students.
